Aspiring Full-Stack Developer | Computer Science Student

Computer Science student at Bahir Dar University – Bahir Dar Institute of Technology (BiT) with a strong interest in full-stack web development. Experienced in building modern web applications using React.js, Next.js, Python, and Django, with a focus on clean user interfaces, performance, and scalable architecture.

Passionate about solving real-world problems through technology and currently expanding knowledge in Artificial Intelligence, Machine Learning, and intelligent systems.

Actively involved in tech communities and volunteering initiatives, with strong collaboration, communication, and problem-solving skills.

Technical Skills

Languages: Python, JavaScript, SQL, HTML5, CSS3

Frameworks & Libraries: Django, React.js, Next.js, Tailwind CSS, Styled Components

Databases: PostgreSQL, MySQL, MongoDB

Tools & Technologies: Git, GitHub, REST APIs, Responsive Web Design, Agile Development

---

Projects

Full Stack Realtime Chat Application

Technologies: MERN-Stack, Socket.io, Zustand, Tailwind CSS, DaisyUI

- Developed a real-time messaging application using the MERN stack.
- Implemented instant messaging and live user status with Socket.io.
- Built authentication features and responsive UI using Tailwind CSS and Daisy UI.
- Integrated media sharing and online user tracking.

Live Demo: Chat- Application

Queue Management System

A full-stack web application designed to manage service queues for professional institutions efficiently.

Technologies**:** Django, Django REST Framework, PostgreSQL, SQLite, React, TypeScript, Tailwind CSS

- Developed a robust backend with Django REST Framework supporting API-driven frontend integration.
- Implemented user authentication and role-based access control using JWT tokens.
- Enabled queue creation, management, and department-based services with customizable institution names.
- Optimized database usage with SQLite (development) and PostgreSQL (production).

Live Demo: Queue Management System

Women's Journeys Blog – Storytelling Platform

A modern, high-quality blogging platform dedicated to sharing and celebrating impactful stories of women's journeys, with a strong focus on inclusivity, performance, and visual storytelling.

Technologies: React.js, Tailwind CSS, Lucide Icons, Axios, Django, Django REST Framework, Simple JWT, SQLite / PostgreSQL

- Developed a full-stack blogging platform enabling users to create, read, and share inspiring stories with a clean and intuitive interface.
- Built a responsive and visually appealing frontend using React and Tailwind CSS, ensuring smooth user experience across devices.
- Focused on accessibility and inclusive storytelling by structuring content for readability and engagement.

Live Demo: Women Journey Blog

Experience

Frontend Development Intern
Prodigy Info Tech
Remote April 2025 – May 2025
• Developed and improved frontend components using HTML, CSS, JavaScript, and React.js.

MERN Stack Intern
Future Interns
Remote August 2025 – September 2025
• Worked on web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
• Built and tested API integrations for web applications.

Volunteering & Leadership

G17 UAC Campus Ambassador – Bahir Dar University | Nov 2025 – Present

- Represent the university in Ethiopia, promoting SDG goals.
- Lead community projects, workshops, and outreach initiatives.
- Advocate for SDG 9 (Industry, Innovation & Infrastructure), supporting sustainable tech solutions.

Education

Bahir Dar University - Bahir Dar Institute of Technology

- B.Sc. in Computer Science
- Expected Graduation: July 2027
